Training

Internship

Frontend Development Intern | Livwell Asia, Noida   **May 2024 – June 2024**
Noida, Uttar Pradesh

- Contributed to the development of **Livwell's B2B corporate platform**, focusing on frontend design and user experience improvements.
- Developed and optimized responsive UI components, enhancing the platform's usability and performance.
- Collaborated with the engineering team to implement modern **web technologies** and improve overall product functionality.
- Participated in team meetings, providing valuable insights and actively engaging in discussions to improve the product.
- Strengthened technical skills in HTML, CSS, JavaScript, and UI frameworks, while working in an agile development environment.

Projects

Fitness Gym Website / *HTML, CSS, JavaScript*   **January 2025**

- Developed a fully responsive fitness gym website using HTML, CSS, and JavaScript to improve user engagement and brand presence.
- Implemented an interactive class schedule, membership sign-up form with validation, and animated workout sections for an engaging user experience.
- Integrated a dynamic testimonial slider, parallax scrolling effects, and performance optimizations for fast loading and SEO.

Personal Portfolio Website / *React, Next.js, Node.js*   **February 2025**

- Developed a dynamic and fully responsive portfolio website using React and Next.js to showcase projects, skills, and experience.
- Implemented interactive UI elements, dark/light mode, and smooth page transitions for an engaging user experience.
- Integrated a backend with Node.js/Express.js for handling contact form submissions and real-time analytics tracking.

Coffee Shop Website / *HTML, CSS, JavaScript*   **February 2025**

- Developed a fully responsive and interactive coffee shop website using HTML, CSS, and JavaScript, enhancing user engagement.
- Implemented dynamic UI elements, including an interactive menu, image carousel, and smooth animations for an appealing customer experience.
- Designed a reservation system with form validation and optimized site performance for fast loading and SEO.
